

Woo Hannah (B. 1988)

Woo Hannah's work imagines an existence that transcends the notion of a finite and fixed body. Based on this, she depicts a scenario where all beings are equal to one another in a horizontal relationship, breaking away from the existing dichotomy which divides humans and non-humans. She presents a situation in which opposite and polarized beings, such as the living and the non-living, the protecting and the protected, the old and the young, the painful and the joyful, converge and complement each other in works that do not limit the boundaries of genres, ranging from painting to sculpture to installation which is based on fabric as the main material.

Woo Hannah received both BFA and MFA from the Korea National University of Arts' department of Visual Art and has held solo exhibitions at Frieze No.9 Cork Street (London, 2023), G Gallery (2023), and Song Eun Art Cube (2020). Her recent group exhibitions include SeMA Omnibus: At the End of the World Split Endlessly (Seoul Museum of Art Seosomun Main Branch, 2024), Living in Joy (Art Sonje Center, 2023), Summer Love (Song Eun Art Center, 2022), Sculptural Impulse (Buk-Seoul Museum of Art, 2022), 2020 Next Code (Daejeon Museum of Art,

2020), and many others, in addition to participating in the Art Plant Asia 2020 exhibition *Hare Way Object*. Woo received the Frieze Artist Award in 2023, and her work is in the collections of KADIST, Art Sonje Center, DOOSAN ART CENTER, and the Seoul Museum of Art. As part of the DOOSAN International Residency program, she will be attending the ISCP Residency in New York in 2025.
